3Q 2016 Domestic Well List for EPA 8-4-16.xlsx

Dave and Jeryl,

Attached is the Domestic well table for the 3Q 2016 event for the Yerington site. Please let us know if EPA plans on collecting split-samples this quarter.

Thanks,

-jack

**Subject:** 3Q 2016 Domestic Well Sampling Event

Jack,

Attached for EPA's use is the Domestic Well table for the 3Q 2016 event, during which "Quarterly" and "Semi-Annual" wells **at residences not currently receiving City water** will be sampled (up to 39 residences to be sampled). A second tab on the attached table indicates the 39 wells potentially to be sampled during the event, which is scheduled to start at 11 AM on Tuesday, Sept. 13<sup>th</sup> and last through the end of Wednesday, Sept. 14<sup>th</sup>. Please let me know if the EPA will be collecting split-samples this quarter.

Some contact information has been revised (as indicated in the table) since our last e-mail to EPA on 4/26/16. Also, a new residence (DW-214) was added to the monitoring program and sampled during the 2Q 2016 event, and currently receives bottled water based on 2Q 2016

results. The sampling frequency of DW-213 has changed to “Semi-Annual” from “Quarterly” as they now receive bottled water based on 2Q 2016 results. Therefore, going into the 3Q 2016 sampling event, the current totals are as follows (as of August 4, 2016):

211 wells total

182 “Yes”, we have signed access agreements (although up to 39 wells are potentially to be sampled)

4 “Pending”, owner(s) have indicated that a signed access agreement will be sent

2 “Outstanding”, access agreement sent but not returned, we have been unable to contact by phone and/or in person

23 “No”, owner(s) not interested in program, have declined access to sample their well

I’ll let you know of any revisions to this information before the 3Q 2016 event, which again will start on Tuesday, Sept. 13<sup>th</sup>. Please let me know if you have any questions. Thanks!

**Rob Lowry**
